# Call for Participation: Inter-Domain Routing Workshop

May 1-2, 2004

RIPE NCC, Amsterdam

# IDRWS

- A workshop about the future of Inter-Domain Routing (IDR) over the next five years or so
- To help researchers to act jointly with current operational problems
- Organised by
  - Intel Research
  - University of Karlsruhe
  - Technical University of Munich
  - RIPE NCC
- WS Goals:
  - a small, focused group of operators, vendors and researchers
  - an open forum for discussion
  - brainstorm about tools and methods that could help to alleviate operational problems
  - concrete ideas for new or enhanced services and collaborations on tools

# IDRWS (cont.)

- Participation is limited (~25 participants)
- Each participant is expected to give a short contribution (about 15 to 30 min)
  - monitoring strategies and tools
  - reports about best common operational practices
  - protocol enhancements
  - [...]
- And hopefully help to induce lively, fruitful discussions ;)
- Please send an abstract about your contribution to [idrws@ripe.net](mailto:idrws@ripe.net) before March 29, 2004.
- Workshop in Amsterdam at the RIPE NCC just before RIPE 48, May 1-2, 2004
- Minutes and results will be presented at RIPE-48
- Questions?
  - [idrws@ripe.net](mailto:idrws@ripe.net)
